

WELCOME

Dialog meeting

Public consultation of the Methodology for procurement of countertrade energy

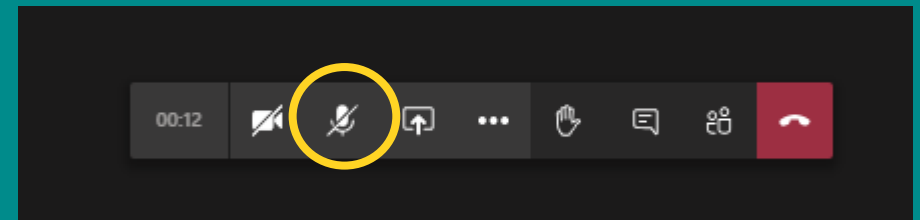

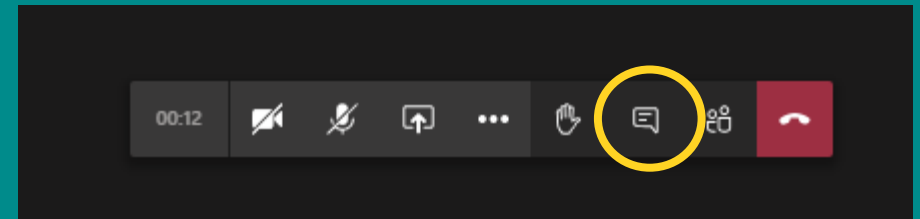

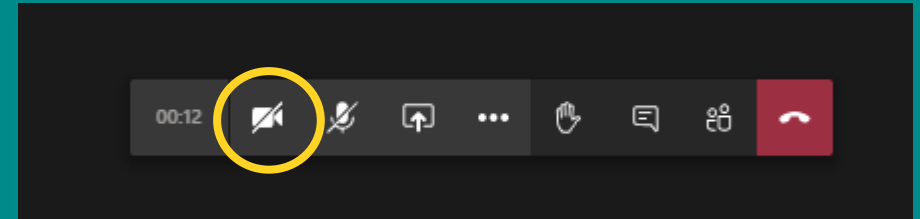

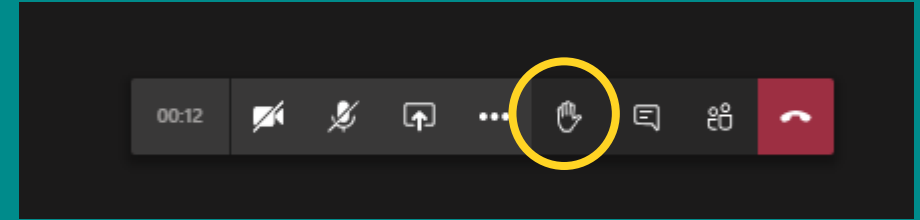

QUESTIONS AND COMMENTS GUIDELINE

- You can comment and give input in the chat box
- If you have questions which requires an answer, please raise your hand and ask the question out loud
- Questions asked in the chat must be repeated verbally to ensure an answer

TECHNICAL GUIDELINES

- If you have a question or a comment, please use the "raise your hand" function in teams. We will make sure everyone gets speaking time
- Please turn off your camera whenever you are not speaking and please **turn it on whenever you are speaking**
- You can write comments in the chat box
- Please mute your microphone whenever you are not speaking

PURPOSE OF THE DIALOG MEETING

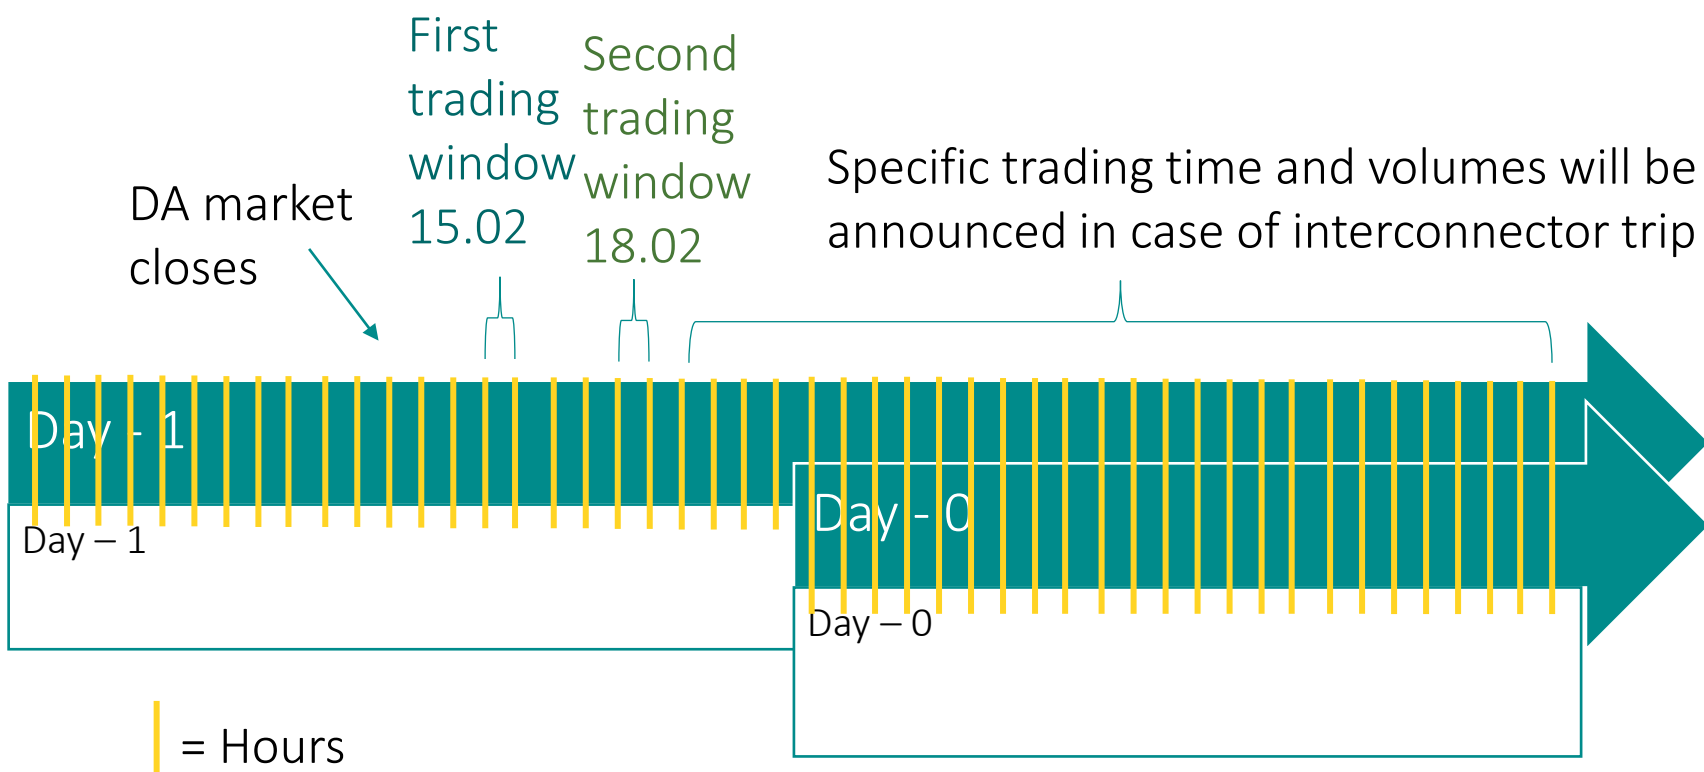

The purpose of the meeting is to give market participants a possibility to receive answers on questions to the methodology, further Energinet wishes to receive feedback from participants which enables improvements of the methodology before submitting it for regulatory approval.

Input provided during the meeting will not be regarded as a formal response.

Therefore, please submit consultation responses before August 30.

THE MODEL

- Two windows (structural CT)
- Trading after the windows in case of interconnector trip
- Publication of: bid/offer price, volumes and timings
- Auction-like setup
- Firm only once traded
- Gradual implementation
- Requester pays

your participation

COUNTERTRADE INFORMATION

Information related to developing the countertrade model has been gathered here:

[Modhandel | Energinet](#)

<https://Energinet.dk/EI/EI-markedet/Modhandel>

So far only on the danish site.

MODHANDEL

Energinet arbejder for at sikre en effektiv, markedsbaseret grøn omstilling med høj forsyningssikkerhed. Dette sikres med effektive markeder med størst mulig konkurrence og adgang for flest mulige aktører, så forbrugerne har adgang til så billig strøm som muligt.

Energinet har igangsat et arbejde med henblik på at ændre den nuværende model for modhandel af strøm – og her på hjemmesiden er information og dokumentation samlet.
